

### Ship Tax Measure, No. 9 on Ballot, is Endorsed by Legion

With the endorsement of the American Legion Department of California, coupled with the endorsement of responsible leadership in the ranks of industry and labor, the California Marine Development Council this week announced a concerted campaign for a "Yes" vote on Proposition Number 9 on the No. 5 ballot.

The proposition, passed by over two-thirds vote of the last session of the state legislature but needing ratification at the polls to become operative, adjusts tax discrimination against California fishing fleets as compared to other vessels.

### M.W.D. Delivers Another Batch of Dist. Bonds

Because of a favorable money market, the Metropolitan Water district this week is delivering \$10,648,000 in district bonds, sold at the last meeting of the board of directors to the Reconstruction Finance Corporation.

The RFC agreed to take the bonds at 3 1/2 per cent interest, which is considered a low rate. Proceeds from sale of the bonds will give the district sufficient funds to complete the feeder lines to Glendale, Burbank, Beverly Hills and Santa Monica, it is believed now.

Water district bonds totaling \$130,864,000 now have been issued by the directors, out of the authorized issue of \$220,000,000.

### 'Third Term' No Stopper to Heads of Charity Group

A "third term" may be anathema to pro-Willkie supporters but to directors of the Torrance Community Service Association it's a merited honor.

Henry T. Lintott, plant superintendent at the Columbia Steel, was re-elected for the second time to a third year as president of the Association Tuesday.

Directors elected for another term were R. R. Smith, Sherwood McIntyre and William H. Tolson. The Association's drive for \$2,200 to maintain welfare and relief projects here now totals \$976, it was reported.

### Torrance and Banning High School Yearbooks Get National Honors

Yearbooks published by Torrance and Banning high school students last term were awarded second class national honors in ratings announced last week by the National Scholastic Press association at the University of Minnesota.

The books, the Torrance high school Torch and the Banning high Pilot Wheel, were among publications entered by undergraduate staffs of some 650 high schools.

Entries were divided into competition classes, according to enrollment, type of school and method and frequency of publication. Judging is done by a board of professors in newspaper and magazine work, who score the entries on a numerical rating scale.

### Why Is A Bad Boy? Behavior Cases at High School Get Thorough Study, Treatment

Following is the third article in the "Know Your High School" written especially for The Herald.

By THOMAS H. ELSON  
Principal of Torrance High School

One of the major problems of any school is that which still travels under the name of "discipline." A more accurate title would be "behavior." More discipline is indulged in among school patrons, casual observers and sometimes among educators themselves on this topic than any other connected with a school.

A few things we do know, however, and much progress is being made in meeting this problem, not only in schools in general but in Torrance high school as well. In fact it is recognized by juvenile authorities that Torrance high is in the forefront of the movement to place disciplinary control on a scientific basis.

Ninety percent of the behavior problem cases in high school are due to causes for which offenders are not to blame. These causes are of two kinds: (1) those which have to do with physical or mental condition of the child, such as glandular trouble, nervous instability and malnutrition; and (2) those which have to do with the conditions under which he lives.

Cases Thoroughly Studied  
The first set of cases interfere with normal physical growth and development and the latter interfere with adjustment to people and the laws of society.

Adolescents who have some physical or mental defect or who are harassed by inharmonious or nervous excitement at home, rigors of poverty or disease, too severe or too lax discipline are not able to get along with people at school or anywhere else. They eventually get into serious trouble. To correct this situation these individuals must be dealt with not as criminals but more like persons who are ill.

For this reason all behavior problem cases at Torrance high school are processed through a committee. This group, called an adjustment committee, serves as a clinic to first, diagnose the

case, and second, to bring about a cure. Every case is thoroughly studied to determine the cause. In order to make this study a thoroughgoing one, all available data concerning the student is compiled. This includes, mental and physical health records, school work records, information on social attitudes, diet and sleep habits and home conditions.

Guide-Counselors Assigned  
If the diagnosis indicates the cause is as stated for the 90 percent, a cure is attempted. The elimination or correction of causes, establishment of better relations between the student and his surroundings, development of some new interest, change of courses are some of the means employed.

To facilitate these steps the best possible sponsor-adviser is assigned to the case to act as guide and counselor.

Most cases yield to this treatment and in time become good citizens. Most parents cooperate with us because where home conditions are at fault, only parents can make this correction. For this 90 percent, punishment is the last means considered. The remaining ten percent is another matter.

(The fourth article in the "Know Your Torrance High School" series by Principal Elson will be published next week.)

### Townsend Club Activities

By Vernon F. Glidden

Our birthday party last Friday evening was a very enjoyable occasion, the birthday table being beautifully decorated by Mrs. Sam Nourse and Mrs. Glidden. Those whose birthdays were celebrated were Fred Wagner, Mrs. Beth Paige, Mrs. Hazel Nourse, Mrs. Balleis, Mrs. Carol Brown and Mrs. Henry Colburn. Visitors from out of town were Mr. and Mrs. Fred C. Wagner and Mrs. Barker of Los Angeles and Mr. and Mrs. Amos French of Gardena. Several local visitors were also present.

Miss Margaret Condon graciously entertained with two piano accordion solos which were much appreciated. Several of our members attended the social and dance at 7919 South Broadway Saturday evening. Some also attended the Sunday afternoon meeting at the same address when little Miss Pauline Davis entertained. Tom Daugherty also presented one of his chalk talks.

The public is invited to any and all of our meetings. Everyone is welcome.

Mr. and Mrs. R. C. Biswell of Monrovia accompanied by Mr. and Mrs. Harley Pettigill and Mrs. Grimes of Colmar, Illinois, visited Sunday at the home of Mrs. A. M. Fouts and sons, 1024 Cota avenue.

### Christian Church, Debt-Free, Will Burn Note Sunday

Debt-free for the first time since property for the church was purchased in 1923 for \$3,500, the First Christian church will burn the recently paid note at the Sunday morning service, Oct. 20, Rev. Frank T. Porter announced today. The recently paid note originally was for \$4,500, the amount loaned the church in 1924 by the union of all Christian churches in Southern California for the construction of the building at Engracla, Arlington and El Dorado.

Today the church property is valued at \$12,000. Since the first building was erected by Warren Johnston, former resident now living in Escondido who donated his services as contractor and gave much of the material that went into the structure, several additions have been constructed. These include the large social hall and a class room, the latter being built in 1932.

Scott R. Ludlow, an elder, trustee and superintendent of the church Bible school, recalls that the church was constructed with the generous contributions of many residents and friends of the denomination. The roof, electrical fixtures and other parts were donated and both local banks assisted in the financing of the structure. The last payment was for \$2,250, Rev. Porter said, and now the church is looking forward to other improvements.

These may include painting and the enlargement of the auditorium. The denomination is in excellent condition, not only financially, but in morale and membership, the pastor said, and the celebration Sunday will be "the take-off for better things to come."

### Gardena Veterinarian Qualified by Experience

Years of experience—he pioneered in humane work and is a former chief humane officer for the Los Angeles Society for Prevention of Cruelty to Animals—have qualified Dr. C. C. Warn as a top-notch veterinarian. He is located at 16613 South Figueroa street in Gardena where he maintains facilities for treating any animal ailments. A former general manager of the Los Angeles Humane department, Dr. Warn served with distinction and is continuing this service now as a private veterinarian.

Mr. and Mrs. Willis M. Brooks left last Friday for Lansing, Michigan, where they will take delivery of a new car. They plan to visit at Binghamton, New York, and tour the New England states.

"Walk in love, as Christ also loved us, and hath given himself for us an offering and a sacrifice to God for a sweet-smelling savour." This verse from Ephesians is the Golden Text in the Lesson-Sermon on "Doctrine of Atonement" on Sunday in all Churches of Christ, Scientists.  
The Lesson-Sermon includes these verses from John: "Then came the Spirit and abode with him, and was seen to him, how long dost thou make us to doubt? If thou be the Christ, tell us plainly. Jesus answered the disciples and he believed not; the works that I do in my Father's name, they bear witness of me. . . I and my Father are one." Paul's words to the Corinthians are also presented: "Now I beseech you, brethren, by the name of our Lord Jesus Christ, that ye all speak the same thing, and that there be no divisions among you; but that ye be perfectly joined together in the same mind and in the same judgment. . . For Christ sent me not to baptize, but to preach the gospel."  
Among the passages from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy, are the statements: "Atonement is the exemplification of man's unity with God, whereby man reflects divine Truth, Life, and Love. Jesus of Nazareth taught and demonstrated man's oneness with the Father, and for this we owe him endless homage."
